AIA LIVING

Health Insurance

HEALTHIER, LONGER,
BETTER LIVES

What is health insurance?

Good health is undoubtedly invaluable. Health insurance takes care of your medical bills and provides you with faster medical care that suits your needs. It's available to children from birth and there's no underwriting required within their first three months of life.

Why do I need it?

Our public health system and ACC do a great job supporting people who require urgent medical attention. However, many health issues Kiwis face are either not accidental or can mean delayed treatment due to long waiting lists, and can cost thousands. Health insurance removes the worry around unexpected medical bills so you can focus on getting the right treatment and start your recovery sooner.

Key benefits of our health insurance

- There's no annual limit on the amount you can claim for surgeries
- Includes \$500,000 extensive cancer cover for every stage: from diagnosis, to treatment and recovery
- Provides up to \$200,000 for major diagnostic imaging and testing
- Access to our Enhancement Pass Back Benefit which is our commitment to you to keep our insurance relevant. Changes we make to our AIA Living products in the future are automatically passed back to you, offering you even more at claim time.

Our health insurance options

AIA Private Health

Takes care of the medical costs for the big things like diagnostic testing, cancer treatment, and surgeries. We let you choose your medical providers.

AIA Private Health Plus

Includes everything that Private Health does, but also covers additional specialists and tests, reproductive health, and a health screening allowance.
