

Unfortunately, experiencing a trauma such as serious illness or injury at least once in your life is more common than you might think. Trauma insurance is designed to pay you a lump sum of money to manage the financial impact if you or one of your children were to face one of these events.

## Why do I need it?

We often experience financial hardship as a result of a serious illness or injury to ourselves or a family member. Having trauma insurance can provide muchneeded financial support to cover whatever you need, like taking care of medical treatment and rehabilitation costs, or simply allowing you financial breathing space to enable you or your family members to recover and be together, instead of at work.

## Key benefits of our trauma insurance

- Covers you for a range of defined medical conditions
- Offers protection if you suffer a major medical condition that isn't listed in the policy wording, but meets our definition of a 'severe illness or injury'
- Includes some built-in trauma as well as standalone trauma insurance for your children from three months old, to support your family should your child face a serious illness or injury.
- At claim time we'll take into account the latest recognised medical diagnostic techniques used to assess your covered medical conditions

## **Our trauma insurance options**

#### **AIA Living Critical Conditions**

Traditional trauma insurance, designed to pay a one-off lump sum if you suffer from a range of defined medical conditions.

#### **AIA Living Progressive Care**

Innovative trauma insurance that allows you to make multiple claims, based on the severity of your illness or injury. You'll be covered for defined medical conditions across five categories: Cancer, Heart and Arteries, Brain and Nerves, Loss of Function, and Other Health Events.

AIA LIVING

# TRAUMA INSURANCE OVERVIEW

New Zealanders are increasingly surviving illnesses that previously have been terminal, so we have two trauma insurance options ensuring you have access to relevant cover.

AIA Living Critical Conditions is our traditional option where you receive a one-off payment, and then your cover ends unless you have selected the option to reinstate at the time you take out your policy. AIA Living Progressive Care covers a wider range of conditions and the payment amount is linked to the severity of the diagnosis, allowing you to make multiple claims.

Depending on your situation it can be powerful to have both types of trauma insurance to make sure you're supported when and where it's needed most. Progressive Care can provide financial support for less severe claims, and both types of trauma insurance can be used when you face something big, providing financial support for a range of situations.

## **AIA Living Critical Conditions**

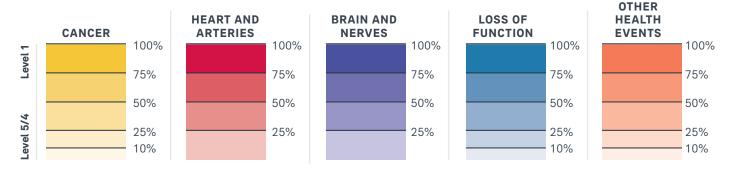

Being covered for a serious illness or injury is simple with AIA Living Critical Conditions. You'll be covered for a range of defined critical medical conditions that offer either a full payment or partial payment.

## **AIA Living Progressive Care**

This innovative trauma insurance can provide multiple payments linked to the severity of the condition. The more severe it is, the bigger the payment.

It covers a range of defined medical conditions across the five categories below. Each category offers severity levels from level 1 (most severe) down to level 4/5 (least severe).

This is an illustrative guide only. Claims are subject to the terms and conditions of the policy document.

#### Your cover continues after you claim

When your policy begins, the amount of cover in each of the five categories is the same. As you claim, these amounts decrease but your cover continues at the new amount.

The strength of Progressive Care means after you make an initial claim (First Claim), you could then make future claims if your condition becomes worse or you suffer from a more severe related condition (Related Claim), or if you suffer from an unrelated condition (Unrelated Claim).

**FIRST CLAIM** 

If a claim is paid under a specific category, the insurance remaining within that category decreases by the claim payment amount. If you receive a 100% claim payment, the insurance for that particular category is exhausted. However, the amount of cover for all other categories remains unaffected.

**RELATED CLAIMS** 

If your medical condition worsens or you suffer from a related medical condition, you could claim again\*. The severity level must be higher than the preceding related claim. In these cases, the claim payment is based on increase in the severity\*.

**UNRELATED CLAIMS** 

When you suffer a medical condition unrelated to previous claims.

AIA LIVING Trauma Insurance

<sup>\*</sup>Subject to cover being available within the category.

# An example of how our trauma insurance can help

## Tom's claim journey

Tom suffers a severity level 3 heart attack. He's eligible for a 50% claim payment under his Progressive Care and full claim payment from his Critical Conditions. His total claim is \$150,000.

Tom has \$200,000 of trauma insurance made up of \$100,000 Progressive Care and \$100,000 Critical Conditions

#### **PROGRESSIVE CARE**

#### **OTHER HEART AND BRAIN AND** LOSS OF **HEALTH CANCER ARTERIES NERVES FUNCTION EVENTS** FIRST CLAIM \$100.000 \$50,000 \$100.000 \$100.000 \$100.000

i.e. \$100,000 less a claim payment of \$50,000 (\$100,000 x 50%)

## CRITICAL CONDITIONS

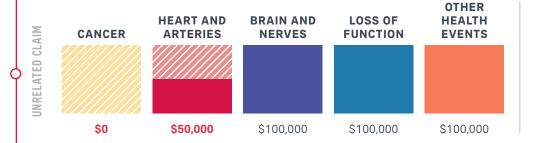

with Optional Critical Conditions Buy-Back

\$100,000 lump sum payment

Tom's Critical Conditions is then reinstated. It now has an exclusion for heart attacks.

Unfortunately, 5 years later Tom suffers from cancer at severity level 1. He receives a 100% claim payment from Progressive Care and full claim payment from Critical Conditions. His total claim is \$200,000.

While Tom's Critical Conditions insurance wasn't reinstated, his remaining Progressive Care continues to cover him across the remaining categories.

\$100,000 lump sum payment

# Covering childhood

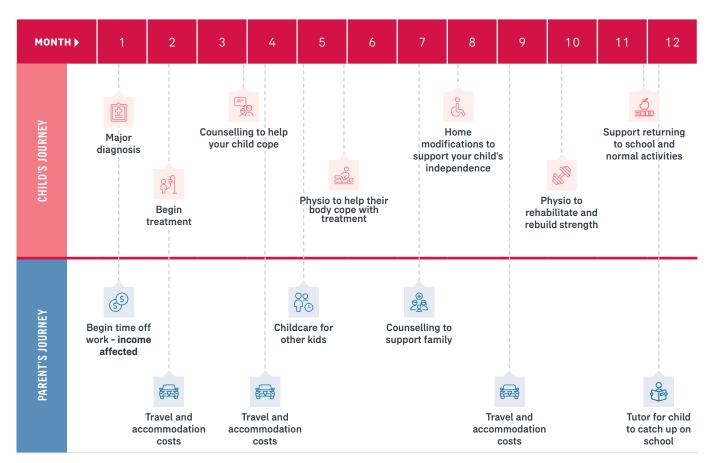

No one wants to think about the implications or impact on your family, if your child becomes seriously ill or injured. Should the worst happen, your children will need you by their side.

The last thing you should have to worry about is how to afford time off work to be there for them. We want you to be able to focus on being with your child, knowing that any unexpected costs are covered.

Our standalone trauma insurance for children provides a lump sum of up to \$250,000, and is available to children as young as three months old, without having to be linked to a parent's policy. We're here to provide you with greater protection and peace of mind knowing that during difficult times, you are financially supported.

The below example illustrates the potential family experience that may unfold following a child being diagnosed with a critical illness, such as leukaemia. These financial impacts are what AIA trauma insurance can help relieve.

#### **UNEXPECTED EXPENSES**

#### **EXPECTED EXPENSES**

Mortgage payments

Utility bills

Food

School fees

# What's included with our trauma insurance

#### **Enhancement Pass Back Benefit**

Any future improvements we make to our AIA products are automatically applied to your policy, providing you with even more coverage when you make a claim.

#### **Medical Advancements Provision**

If the medical diagnostic techniques and investigations used in our definitions of medical conditions have been superseded due to medical advancements, we will consider these when assessing your claim.

#### Severe Illness or Injury Benefit

This benefit aims to offer protection if you suffer a major medical condition that isn't specified in the policy wording, but meets our definition of a severe illness or injury.

### Children's Trauma Benefit

This benefit provides you with some trauma insurance for your children aged from three months up to their 21st birthday. Should they face a covered condition, this benefit will pay the lower of 50% of the sum assured or \$50,000.

Importantly, the payment of this benefit will not reduce the amount of any trauma insurance remaining for the life assured. The Children's Trauma Benefit is payable once per child across all AIA policies. A 14 day survival period applies. Exclusions apply for any congenital or pre-existing conditions.

### **Suspension of Cover Benefit**

AIA provide the flexibility to suspend your cover for up to 12 months, without medical evidence if you meet the following conditions:

- Take parental leave
- · Take leave without pay for any reason
- Get made redundant
- Become unemployed
- Experience at least a 20% reduction in pay (comparing the most recent payslip against a previous payslip from the same year)
- If self-employed, experience a 30% reduction in revenue (by comparing one month's revenue against the same month for the previous year)

No benefits will be payable for any claim event which occurs during this suspension period.

#### Newborn Children's Benefit

If a child of a life assured is born with one of eight specified congenital conditions and survives for thirty days after birth, this benefit will pay the lower of 50% of the sum assured or \$50,000. The payment of this benefit will not reduce the amount of any trauma insurance remaining for the life assured.

Please note that AIA will pay one claim per child under either the Newborn Children's Benefit or the Children's Trauma Benefit across all AIA policies. The Newborn Children's Benefit is payable once per child across all AIA policies. A 12 month stand down period applies.

## Financial and Legal Advice Benefit

This enables you at claim time to access financial and legal advice from an AIA approved financial adviser or legal professional. AIA will reimburse you for fees up to \$2,500 (incl. GST). This is a one-off payment across all AIA policies for each life assured.

## **Return Home Benefit**

If you're outside New Zealand and suffer one of the critical conditions for the first time, you could access up to \$10,000 towards the cost for you and a support person to return home.

We will pay up to \$2,500 (incl. GST) to cover the cost of a Psychiatrist or Psychologist consultation and counselling for you and/or your family where the treatment directly relates to a claim.

If the worst should happen to your child and they pass away, we'll help with associated expenses. We will pay you \$2,000 for children aged under 10 years and \$15,000 for children between 10-21 years of age.

When your child turns 21, the Built-in Children's Trauma Benefit and/or Optional Children's Maternity Benefit (where applicable), can be converted to an adult trauma insurance policy. This can be done on a standalone basis or accelerated with the same amount of Life Cover, without any further medical evidence required, provided there is no increase in cover.

## Standalone Conversion Facility

You may convert your standalone trauma insurance to accelerated with an equal amount of Life Cover without any further medical evidence. Conditions apply.

## Premium Conversion Facility

Before reaching the age of 65 years, you have the option to convert all or part of your sum assured to a level premium structure without further medical underwriting.

## Special Events Increase Facility

Enables you to increase the sum assured under your cover following a significant event in your life which results in increasing financial responsibilities. These significant events include: having a child, your child starting secondary school, taking out or increasing a residential home loan or receiving a salary increase and other major events.

## Future Insurability Benefit

You can apply to increase your sum assured at every third policy anniversary without providing any further medical information. Limits and conditions apply and every increase in cover will result in an increase in premium.

## **Worldwide Cover**

Whether you're at home, travelling or living overseas for any period, you remain insured.

AIA LIVING Trauma Insurance

# Optional benefits you can add on

## Below are some extra benefits you can add to your trauma insurance to give you additional support.

| Optional Benefits                        | Progressive<br>Care | Critical<br>Conditions |
|--|---------------------|------------------------|
| Accidental Injury Cover                  | <b>✓</b>            | <b>~</b>               |
| Waiver of Premium                        | <b>~</b>            | <b>~</b>               |
| Total Permanent Disablement<br>Condition | <b>✓</b>            | <b>✓</b>               |
| Children's and Maternity<br>Benefit      | <b>~</b>            | <b>✓</b>               |
| Early Cancer Upgrade                     | -                   | <b>~</b>               |
| Critical Conditions Buy-back<br>Benefit  | -                   | <b>~</b>               |
| Life Cover Buy-back Benefit              | -                   | <b>✓</b>               |

## Accidental Injury Cover

This optional benefit provides a single up-front payment, should you be injured accidentally (conditions apply). You can use it for whatever you need: covering treatment costs, getting taxis to work, hiring someone to help with children, or simply taking time off work to recover.

You choose how much cover you need, up to \$5,000 a month, and the lump sum you receive is based on the treatment you require. Making a claim under this optional benefit is not affected by payments from ACC or other insurances you may have.

#### Waiver of Premium

This can remove the burden of paying premiums when you are unable to work due to total disability. We will waive your premium payments, while your insurance remains in place.

## Total Permanent Disablement Condition

You can add cover for "own occupation" Total Permanent Disablement (TPD) as a claimable full payment condition under your trauma insurance.

The optional TPD condition expires at age 65 and does not apply to any children under the Children's Trauma Benefit or the Optional Children's and Maternity Benefit.

## Children's and Maternity Benefit

This provides additional children's trauma insurance up to a further 50% of the sum assured (up to \$75,000) per child of the life assured. This benefit is paid if a named child of the life assured suffers any covered condition under your trauma insurance except for the Optional Total Permanent Disablement condition (if applicable). This optional benefit is paid once per child per benefit and is paid in addition to the built-in Children's Trauma Benefit.

It can be added to either Critical Conditions or Progressive Care, but not both for the same life assured. This benefit also provides cover for three defined serious pregnancy complications and eight listed congenital conditions. Exclusions apply for pre-existing conditions or congenital conditions not expressly covered by this benefit.

## The following optional benefits are only available with Critical Conditions:

## Early Cancer Upgrade Benefit

This provides cover for a number of specified minor cancer conditions that are treatable and non life threatening and at the early stages of diagnosis. You are able to make one claim of 25% of the sum assured or a maximum of \$75,000 can be made per life assured across all AIA policies.

## Critical Conditions Buy-back Benefit

This allows you to reinstate the level of cover under your original AIA Living Critical Conditions without having to provide further medical information following a claim.

A 12 month survival period and other conditions and exclusions also apply.

## Life Cover Buy-back Benefit

This allows you to reinstate the level of cover under your original AIA Living Life Cover without having to provide further medical information following an accelerated Critical Conditions claim. A minimum survival period applies and reinstatements are not permitted if the life assured is eligible for a Life Cover Terminal Illness Benefit or the Specified Terminal Conditions Benefit. Conditions apply.

#### A note on exclusions and benefits

This insurance (including the built-in and optional benefits) are subject to certain stand down periods and exclusions. Please also note that the optional benefits are subject to an increase in premium and their own terms and conditions.

For more information, please refer to the relevant policy wordings which can be found on aia.co.nz or speak to your Adviser.

# Medical conditions covered

On the next few pages you'll find an overview of the types of medical conditions covered by our trauma insurances.

Please note the ones with stand down periods, and refer to the applicable policy wordings to understand the full definitions and severity or payments that apply. Policy wordings can be found on aia.co.nz/policyinfo or via your Adviser.
